# Non functional Requirements

ppyordanov edited this page 19 hours ago · 3 revisions

## Android Client

- the user interface should be minimalistic
- screen interaction should be straightforward and smooth
- the application should be fast
- the application should have accessibility features
- more text/ descriptions to aid Android TalkBack
- an average normal user should be able to successfully interact with the Android client within 1 hour of usage

## Web server

- optimized UI
- continuous evaluation and UI redesign
- an average normal user should be able to successfully interact with the server within 1 hour of usage
- designing for blind parents

### ABBI3 System
